

Pupil's Work

Spring 1 2023/4

Year 1

In Year 1 this term, we looked at iconic Japanese artist, **Yayoi Kasuma** as part of our Art learning, specifically her use of dots and colours. We took inspiration from her **paintings** and then replicated her own work and made our own pumpkin designs based on her artwork.

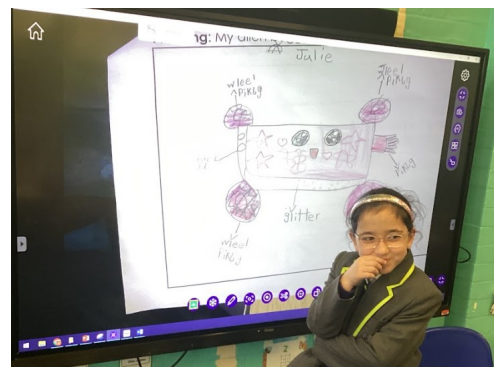

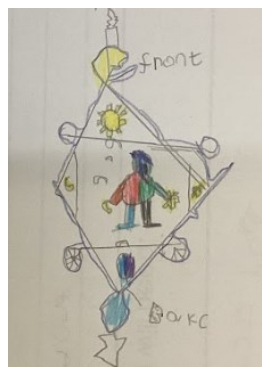

Pupil's Work

Spring 1 2023/4

Year 2

In Year 2 this term, we looked at **Mechanisms** as part of our D&T learning, specifically at **wheels and axles**. We first looked at a range of different **wheels** and then used what we had learned to plan, design and evaluate a space buggy for our friend Mazz the Space Alien (from our ASPIRE lessons).

Pupil's Work

Spring 1 2023/4

Year 3

In Year 3 this term, we looked at **Food** as part of our D&T learning, specifically at **Healthy and Varied Diets**. We first looked at a range of varying **salads** and then used what we had learned to plan, design and evaluate both a fruit and vegetable (Greek) salad to be used in the school canteen.

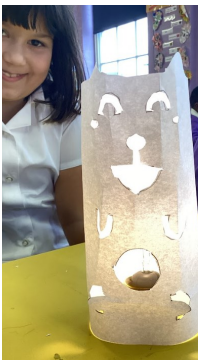

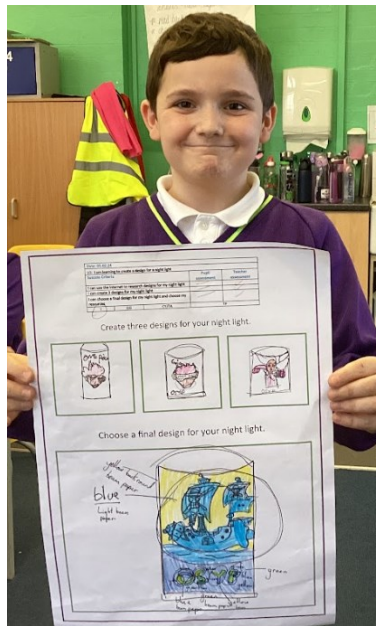

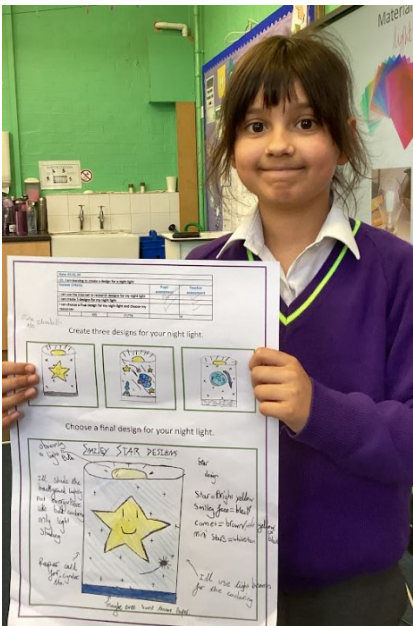

Pupil's Work

Spring 1 2023/4

Year 4

In Year 4 this term, we looked at **Electrical systems** as part of our D&T learning, specifically at **complex switches and circuits**. We first looked at a range of varying night lights and then used what we had learned to plan, design and evaluate a **night light** for a Year 2 pupil.

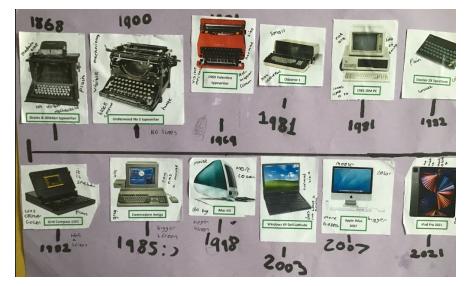

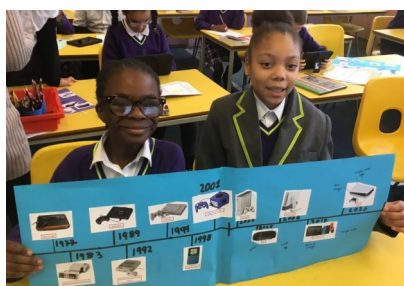

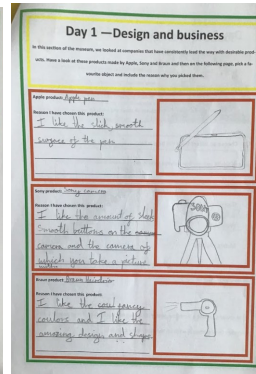

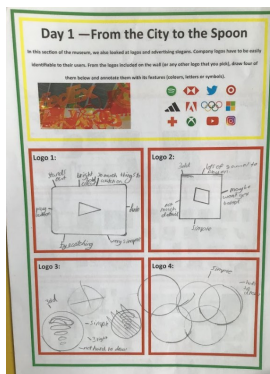

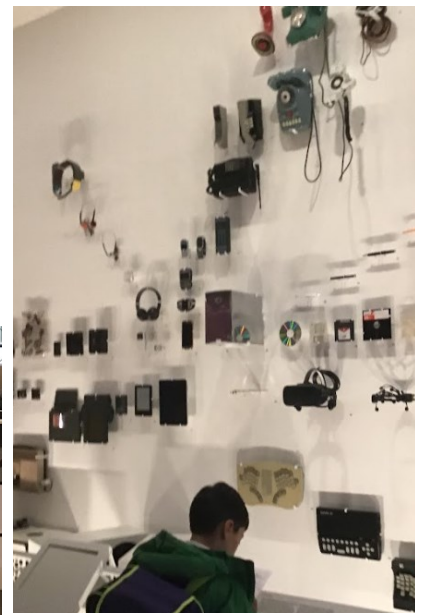

Pupil's Work

Spring 1 2023/4

Year 5

In Year 5 this term, we completed an **investigative and evaluative activity** (IED). We were fortunate enough to visit the **Designer, Maker, User** exhibition at the **Design Museum** and learned all about existing product design in the wider world. We used this learning to inspire us to find out more about influential product design and the impact of specific brands, designers and technology. This then allowed us to complete a project where we evaluated different designs and created our own product designs for phones, video game consoles and computers based on what we had learned.

Pupil's Work

Spring 1 2023/4

Year 6

In Year 6 this term, we looked at **Food** as part of our D&T learning, specifically at using **Healthy and varied diets**. We first looked at a range of different **smoothies** and then used what we had learned to plan, design and evaluate a fruit cocktail for an athlete (linking to our Body Health topic in Science).
