Head Lice Advice – Autumn 2 2024

Control of head lice depends on prompt diagnosis and effective treatment. We encourage parents to check their child's hair at least weekly throughout the school year for the presence of head lice. Treat head lice as soon as you spot them. You can treat head lice without seeing a GP. It is advisable to check everyone you live with, or have close contact with, and start treating anyone who has head lice on the same day, in order to stop them reoccurring.

Your child can attend school once treatment has taken place.

Please let us know if you find any lice in your child's hair so that we can let other families in your child's year group know.
