Holiday Countdown Calendar: How to use.

This calendar can help your child understand how long the holidays lasts for and when they need to come back to school. It can help your child settle back into school quickly as they are prepared for starting school again.

How to use the calendar:

1. Show your child the calendar and say 'today there is no school'. Point to the pictures whilst you do this.

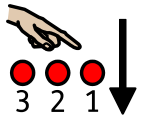

2. Encourage your child to cross off the calendar each day.

3. Remind your child there is no school tomorrow by saying 'tomorrow there is no school'.

4. On the day before your child is due to come back tell them "today there is no school tomorrow you go back to school"

Summer Holiday

planning

Calendar

Holiday planning calendar: How to use.

The next part of this calendar is a way for you to plan activities over the summer holiday with your child.

This can help your child to understand when an activity will happen and also help them to know what they might be doing on different days.

- You or your child could draw a picture of an activity on a specific day e.g. park.
- You could write in the activities across the morning and afternoon.

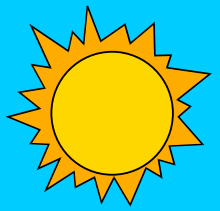

You can then show your child when they are going to be doing an activity to help prepare them.
